

Term 2 - Week 1

Welcome back, whānau! We're diving headfirst into Term 2 with excitement and energy. Get ready for another adventure-packed term featuring cross country runs, deep dives into the Living World through biology inquiries, nurturing our environment with native tree planting and veggie gardens, and embracing our Matariki celebrations.

This term see's a focus on science - Living world, with biology, living things, life cycles and planting cycles being explored. We are looking at measurement and number, as well as proportions and ratios. Maths PLD continues for our staff for maths, and Structured Literacy continues. Te Reo continues each day in class, as well as Kapa Haka on Wednesdays.

THANK YOU!

Thank you to all those who have been helping us out in different ways! We are now inquiring into pricing for our top bike track field to be flattened out - so watch this space for further developments!!

CULTURAL FESTIVAL - TERM 3

This term we start preparing for our Cultural festival next term. We were fortunate to get a grant for uniforms, which is going to make us look super smart - as well as sounding incredible!

SUCCESSFUL HANGI

Thank you for your support with our Hangi - we do apologise for the short notice, we only had 10 days warning about the kiwi release, so we had to act fast!

The community coming together to support this event was incredible - thank you so much. Rest assured, our next Hangi will be held with plenty of preparation time and warning - so as many of you all can be involved as possible. We appreciate your support and grace!

ANOTHER THANK YOU!

Thank you to Emma Holdsworth for a successful Quiz Night! We managed to raise almost \$2500, which is fabulous!
